SPECIFICATION

Appearance (25°C):

Color:

pH 100% (25°C)

Density (25°C)

Limpid

Ocher to amber

3.00 – 5.00

1.0070 – 1.107 g/mL

Refractive Index (25°C): 1.3340 – 1.4340

PROPERTIES AND APPLICATION

ACNEOL® SR SPE has dermo-cosmetic, healing and anti-inflammatory action. Its balanced combination of ingredients helps to combat the comedones formation, promotes the reduction of excessive oiliness from the skin, stimulates the regeneration process and enhances lesions caused by acne.

ACNEOL® SR SPE also has sebum-regulating action*, providing an astringent, refreshing and purifying sensation to the skin.

* Clinically proven product. Tests available.

APPLICATION

ACNEOL® SR SPE is recommended for creams, lotions, gels and other formulations designed to treat oily, reactive and acneic skin.

SUGGESTED DOSAGE

The recommended dosage of use is 2.0–5.0% of **ACNEOL® SR SPE** for daily use formulations or localized treatments.

STORAGE

ACNEOL® SR SPE must be stored in original packing, at dry and covered area, at room temperature and protected against light.

SHELF LIFE

Thirty six (36) months from manufacture date.
